

IMAGINARY

- through the eyes of mathematics

IMAGINARY is a travelling exhibition by the Mathematisches Forschungsinstitut Oberwolfach (Germany) that is coming to Denmark for the first time. The exhibition presents geometric visualisations and 3D objects in an attractive and understandable manner, and aims to evoke curiosity for mathematics. Join us for a unique Science and Arts experience.

IMAGINARY will be housed at the STENO MUSEUM from April 5th till the end of August 2013

$$(x^2 - y^3)^2 = (x + y^2)z^3$$

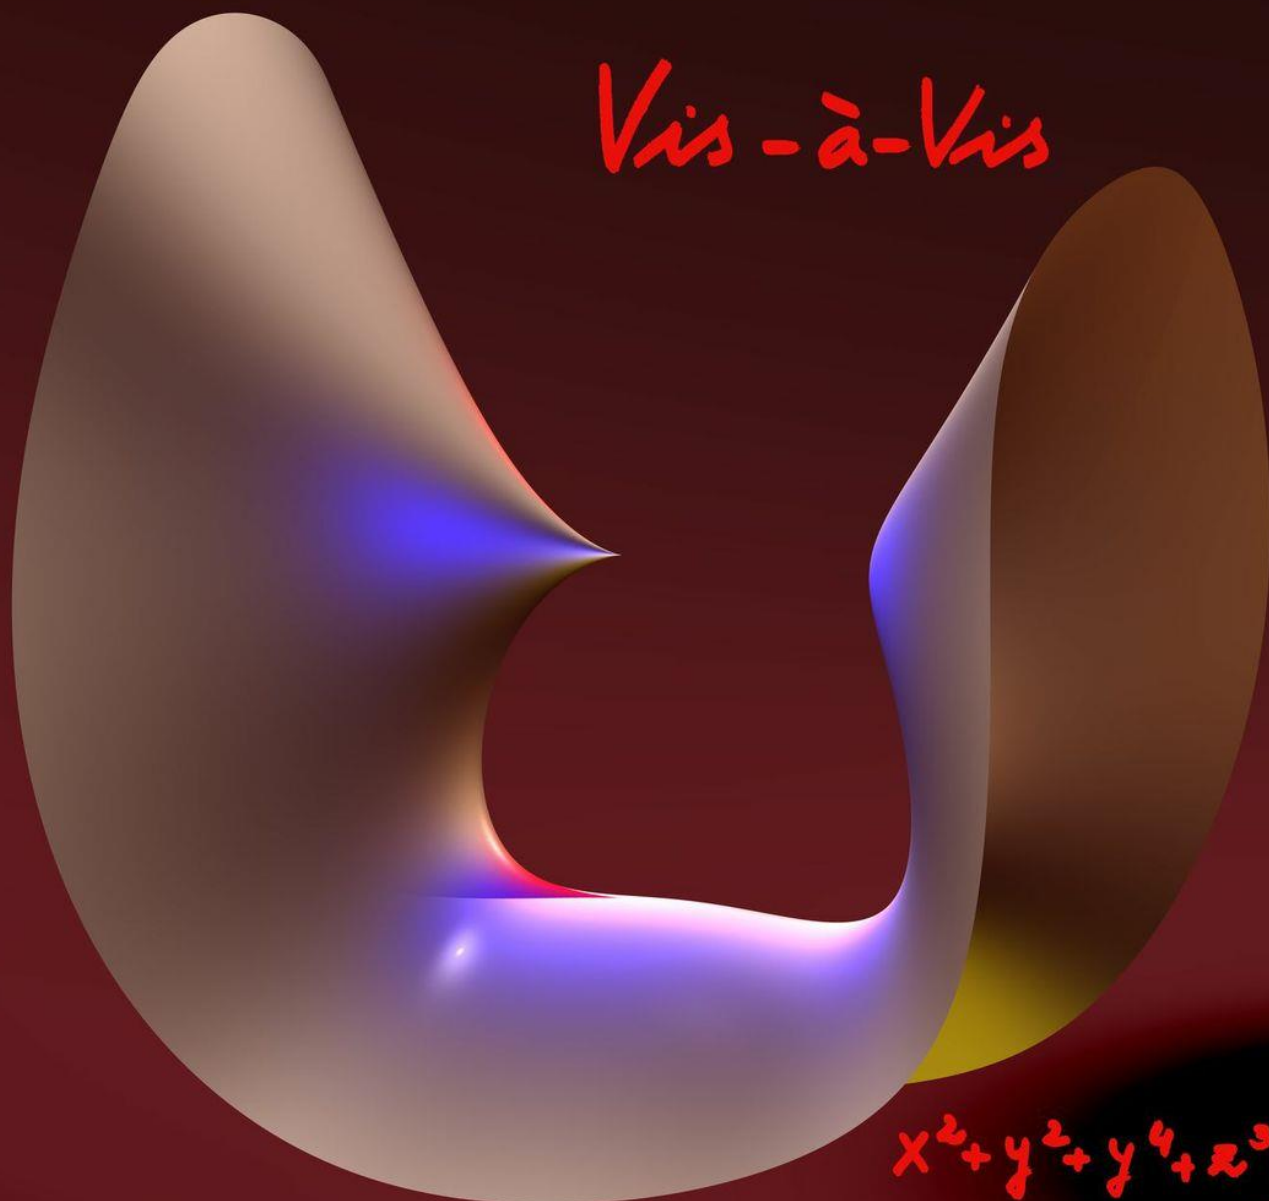

IMAGINARY will be housed at the STENO MUSEUM from April 5th till the end of August 2013

Opening hours

Monday closed
Tues-fri: 9am-4pm
Sat-sun: 11am-4pm

Address

STENO MUSEUM
C.F. Møllers Alle 2
Universitetsparken, build. 1100
8000 Aarhus C

Vis-à-Vis

$$x^2 + y^2 + y^4 + z^3 =$$
$$x^3 + z^4$$
