

Welcome

On behalf of the Flanders Mathematics Olympiad, the KU Leuven and Kulak, the University of Antwerp, Ghent University, Hasselt University, the Free University of Brussels and the Belgian Mathematical Society, we welcome you at this IMAGINARY exhibition.

Splendid images and uniquely beautiful 3D prints of mathematical models are waiting for you. A diversity of software and short movies allows you to actively experiment yourself on 5 large touch screens.

IMAGINARY's motto "OPEN MATHEMATICS" is once again true. All posters of the exhibition will become available, not only on www.imaginary.org. Also on our local site www.imaginarymaths.be you will be able to download digital copies of the posters in the exhibition. The site moreover contains a documentation catalogue where posters and 3D-prints are presented and introduced.

The organizing universities offer an opportunity, in particular for schools but in general for all groups interested, to book online a free guided visit to the exposition. Mathematics teachers will find examples of tasks they can work out with their pupils during a class visit.

Are you interested in one or more posters or 3D-prints for yourself, your institution, your school? Our posters have been printed by www.pixum.be, based upon the files you find on www.imaginarymaths.be. The 3D-prints of the exhibition can be ordered through our partner's website www.ideasworthmaking.com/imaginary.

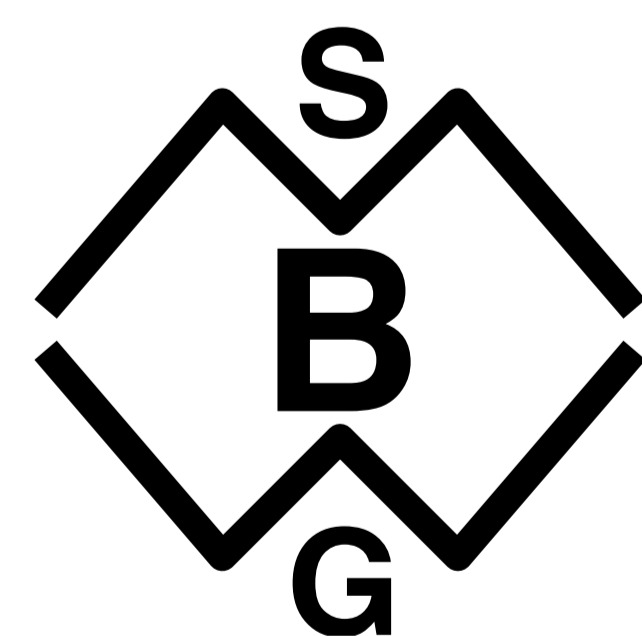

The organizers are grateful to all partners and institutions collaborating in this project. We express our gratitude in particular to the students at the participating universities for their help and to all staff members and IMAGINARY enthusiasts at the different sites who are taking up less visible but not less important jobs. Thank you all!

Steering committee: Paul Igodt (Coördinator), Peter De Maesschalck, Mark Sioen, Stijn Symens, Stefaan Vaes, Marnix Van Daele

Were involved in the set up of this project: Philippe Cara, Karel Dekimpe, Jean-Marie Dendoncker, Johan Deprez, Michiel Dumon, Gommaar Maes, An Speelman, Tania Van Damme, Joris Van der Jeugt, Wim Van Hoof, Andries Vansweevelt

We are grateful to the colleagues and staff members at MFO-IMAGINARY: Gert Martin Greuel, Andreas Daniel Matt, Daniel Ramos, Bianca Violet, Christian Stussak.
